Frequently Asked Questions
Artwork Specifications
 Accepted file formats are PDF, EPS, PSD, EPS, PSD, AI, CDR, PPT, TIFF, TIF, PNG, DOC, DICER, XPS, and other image formats. Banner Size (width by height) should be 2:1 or 1:2 ratio. Horizontal banners should be 2:1 ratio. Vertical banners should be 1:2 ratio. The minimum resolution should be 150dpi for actual size artwork and 300dpi if the artwork is about half size. Provide all crop marks in vector. For example, if you need a banner to be 12 Foot High x 16 Feet Wide, then on the artwork size it 24"x32".

What Color needs to be specified?
 Color is a critical element in banner design. Color can help you communicate your message and create a strong visual identity for your business. To ensure that your colors are reproduced accurately, please provide a color chart or PMS color code for all colors used in your design. This will ensure that your colors are reproduced accurately and consistently across all banners.

What kind of info do you suggest?
 Banner design is a creative process, and we encourage our customers to provide as much information as possible to help us create the best possible banner for their business. This includes providing information about the location and audience of the banner, the duration of the campaign, and any specific messaging or branding requirements.

How large do you need to be printed?
 The size of your banner depends on the location and audience of the banner. Larger banners are typically used for outdoor advertising, while smaller banners are typically used for indoor advertising. We offer a variety of banner sizes to meet your needs, and we can help you determine the best size for your application.

Installation and Shipping
 Banner installation is a critical step in the banner design process. We offer a variety of installation options, including on-site installation and drop shipping. We also offer a variety of shipping options, including standard shipping and expedited shipping. We can help you determine the best installation and shipping options for your needs.

How long does the Order Processing and Turnaround take?
 The turnaround time for Custom 18 oz. Premium Banners depends on the quantity and complexity of the order. We offer a variety of lead times to meet your needs, and we can help you determine the best lead time for your application.

What type of shipping do you offer?
 We offer a variety of shipping options, including standard shipping and expedited shipping. We can help you determine the best shipping option for your needs.

Do you offer free shipping?
 We offer free shipping on orders over \$100. We can help you determine the best shipping option for your needs.

What are the most common banner sizes?
 The most common banner sizes are 10' x 16', 12' x 16', and 16' x 24'. We offer a variety of banner sizes to meet your needs, and we can help you determine the best size for your application.

When do I need to place my order for banners?
 We recommend placing your order for banners at least 4 weeks in advance of the installation date. This will ensure that we have enough time to process and ship your order.

What is the best way to clean a banner?
 The best way to clean a banner is to use a soft brush and mild detergent. Avoid using harsh chemicals or abrasive cleaners. We can help you determine the best cleaning method for your banner.

over to the backside of the banner and attach together before a clean and strong grip to the banner. We offer free text on all banners. Blurred edges are typically used to reinforce the side of your banners. This helps to maintain the banner's shape and prevent stretching.

POLE POCKETS

Provides a convenient method for hanging or attaching vinyl signs to building walls. This eliminates the need for heavy-duty adhesive or other mounting methods. The pockets are perfect for outdoor banners, as it helps to prevent stretching and fading in the wind.

WIND LIPS

Reduces the weight and helps to keep the vinyl signs from flapping at the edges of the banner. This allows for a more even distribution of the banner's weight to prevent sagging. Opposing pole pockets can also be used to ease the banner from wind.
