FREQUENTLY ASKED QUESTIONS

ARTWORK SPECIFICATIONS

WHICH ARE THE ACCEPTED FILE FORMATS?
Bannerstore.com accepts a variety of commonly used file formats that will ensure the best print quality. JPEG, JPG, PDF, EPS, CDR, AI, GIF, PSD, TIF, and TIFF files will all produce clear images that won't be pixelated or blurry. However, for large-format printing, Adobe Illustrator EPS and AI files are the best options. If you're using a design tool like Photoshop or Illustrator, the file formats that can be uploaded are JPG, PDF, PSD, TIF, and TIFF. These types of files will retain their quality when enlarged and printed on a larger scale. So whatever your printing needs may be, be sure to use one of these accepted file formats for the best results.

WHAT RESOLUTION SHOULD I USE FOR THE ARTWORK?
If you're not sure what resolution to use for your artwork, there are a few things to keep in mind. First, the minimum resolution should be 150dpi for actual-size artwork and 300dpi if the artwork is about half size. Second, provide all artwork at 100% of the size you want your banner to be printed. So for 2 Feet High x 4 Feet Wide, then set the artwork size as 24"H X 48"W. Finally, remember that the higher the resolution, the better quality your artwork will be. However, it's also important to make sure that your file is not too large or it may take longer to upload or download. If you have any questions about what resolution to use for your artwork, be sure to chat with someone from our team of someone who has experience with this. Thanks for reading!

WHAT COLOR MODE IS ACCEPTED?
Color is one of the most important aspects of any banner, sign, or related product. After all, the whole point of these products is to grab attention and get your brand noticed across. That's why we offer full-color printing in both CMYK and RGB. CMYK is the standard color mode for print, and RGB is the standard for digital display. Either way, we will make sure that your colors are vibrant and true to your original vision. Plus, we always strive to deliver the best results to meet your specified color requirements. So no matter which color mode you choose, you can rest assured that your finished product will look great.

WHAT KIND OF FONTS DO YOU SUPPORT?
Fonts are an important part of any design, and Bannerstore.com is proud to offer one of the widest selections of fonts available online. With over 1000 fonts to choose from, you can easily select the fonts you want from our large library and customize the text for your banner or sign. If you're uploading a file, we recommend that you outline all the fonts in your artwork before exporting it for printing. This will help you avoid any delays in the final printing process. Whether you're looking for a specific font or just want to browse our collection, Bannerstore.com is the perfect place to find the right font for your next project.

DO I HAVE TO ADD BLEED TO MY ARTWORK?
When designing a banner, it's important to take into account the fact that the finished product will be displayed on a larger surface than the artwork itself. For example, a sign or a banner will be hung from a pole or placed on a wall. In these cases, the edges of the design may be obscured by the hardware used to display the banner. To account for this, many designers choose to add "bleed" to their artwork. Bleed is simply extra material that extends beyond the edge of the design, when the banner is trimmed to its final size, the bleed is cut off, ensuring that no important details are lost in the very edge of the banner. However, bleeding is not always necessary. If your design covers the full surface of the banner and does not extend beyond the edges, you do not need to add bleed. In fact, adding bleed can actually make it more difficult to trim the banner to the correct size. Therefore, So, unless your design requires it, there's no need to add bleed to your artwork.

WHAT SIZE DO YOU OFFER FOR BANNERS?
There are a variety of sizes that you can choose from when it comes to banners. We offer a wide range of sizes to meet your needs. If you need a large banner, then you can choose a size that is up to 150 feet in length and width. If you only need a small banner, then you can choose a size that is only 2 feet by 2 feet. There are also vertical banners that are 150 feet in height and 10 feet in width. You can also choose a horizontal vinyl banner that is 10 feet in width and 150 feet in length. Ultimately, the size you choose for your banner, it all depends on what you need the banner for.

WHAT IS THE DIFFERENCE BETWEEN 13OZ, 15OZ, AND 18OZ VINYL BANNERS MATERIAL?
The main difference between 13oz, 15oz, and 18oz vinyl banners is the weight and thickness of the material. 13 oz vinyl is the lightest and thinnest of the three options, making it less durable and less resistant to tearing and wind. 15 oz vinyl is a little heavier and thicker, providing more durability and resistance to tearing and wind. 18 oz vinyl is the heaviest and thickest of the three options, making it the most durable and resistant to tearing and wind. 18 oz vinyl is by far the best option for banners that will be exposed to harsh weather conditions or hung in high-traffic areas.
