Self Adhesive Vinyl

adhesive vinyl is composed with pressure-sensitive self-adhesive. They are composed of:
 • Backing/Vinyl Material
 • Adhesive
 • Release Liner
 Vinyl is perfect as a heat material because of its flexibility. Whichever most modern films are made of polypropylene, our self-adhesive vinyl films are well suited to collect and control.

With a range of applications, it's important to choose the right one based on your specific needs. The durability of self-adhesive vinyl depends on several factors:
 • The required period of use (days/months/years)
 • The type of surface (metal, plastic, glass, wood, etc.)
 • The environmental conditions (humidity, temperature, exposure to UV, weather, and pollution)
 • Climate conditions (sunlight, moisture, dirt)

Types of Adhesive Vinyl

Signs or Banners Print Film
 Films are produced in a variety of colors, which are cut into shapes, banners, etc. and applied as signage.
