Reflective Signs - Custom
Reflecting Sign Film

Printing
 Reflective adhesive vinyl printing is the perfect solution! Our high-quality reflective vinyl prints will make your signs and billboards visible day and night, ensuring that your message stays on in every condition. With our unique printing technology, our reflective vinyl material retains light in such a way that it is highly visible at night, making it ideal for road safety signage. Whether you're looking to promote your business or increase road safety awareness, reflective adhesive vinyl printing is a cost-effective and impactful solution.

With Reflective Film Printing, you can make your message stand out like never before. There are two kinds of available film types that are available in adhesive film sheets. They are perfect for vehicle graphics and have an outdoor durability of up to 7 years. Reflective Signs also have excellent conformability, adhering well to convex or curved surfaces, corrugations, and even trees. They are easy to apply with their clear, solvent-based, permanent adhesive and can be removed with heat if needed. Reflective Signs meet

ASTM D 4356 specifications for Type 1, Class 1 retroreflective sheeting, and AASHTO Specification M 247. All reflective vinyl sheets are cut with 40° bevels to allow them to be cut and we have cuts to determine the direction.

Reflective Signs - Our High-Quality Reflective Film Material

QUALITE 5600 (low exposure grade) is a self-healing, highly conformable reflective vinyl that was specifically developed for vehicle graphics applications in product lighting, directional reflective lettering, markings, and decorations. With outdoor durability of up to 7 years, QUALITE 5600 provides the needed flexibility for vehicle installations with conformability over convex or curved surfaces, corrugations, and trees. QUALITE 5600 reflective vinyl is available in eleven colors and is corrosion and solvent resistant. It also meets ASTM D 4356 specifications for Type 1, Class 1 retroreflective sheeting. Choose from a variety of colors to make your materials stand out on the road. QUALITE 5600 reflective vinyl is the perfect solution for creating long-lasting, durable graphics that will get noticed at night.

 Acceptable formats are: EPS, PDF, PSE, EPS, CDR, AI, GIF, PSD, TIF, PPT, PNG, DOC, DOCX, SHX, and job image. However, Adobe Illustrator EPS and AI files are better suited for large format printing. If you are using the design tool the file format that will be supported are: PDF, EPS, JPG, GIF, EPS, AI, TIF, and SHX.

What resolution should I use for the artwork?
 The minimum resolution should be 300dpi for actual size artwork and 300dpi if the artwork is about half size. Provide all image files in inches. For example, if you want your banner to be 2 Feet High x 4 Feet Wide, then set the artwork size at 24" x 48".

What Color mode is accepted?
 CMYK. We provide full color printing in CMYK for all types of banners, signs, and outdoor graphics. There is no need to color check in case of files submitted in RGB because we accept RGB as well. Whether CMYK or RGB, we always strive to deliver the best results to meet your specified color requirements.

What kind of fonts do you support?
 All fonts are supported. You don't have to worry about fonts. As long as the font is installed on your computer, we can use it. In the banner design tool, you can select the fonts of your choice from the font library. We will use the font you select as well as the signs. If you are upgrading your file, we recommend including all your artwork's fonts properly before uploading the file for printing or supplying us with the fonts and your artwork. This will help you avoid any delay in the final printed work.

How can I add bleed to my artwork?
 If your design covers the full banner surface we will add extra material for the banner design such as horns and pole pockets. If you do not want extra material, we will not add bleed.

What size do you offer for banners?
 Sizes of Custom Mesh Banners start from 2' x 2' but can be customized to reach 150' in length and width 15' for horizontal banners and 150' in height and width 10' for vertical banners.
