- Professional full-color print by BannerStore.com
- UV and water-resistant ink
- Quick turnaround and production time

24 1/2 Custom Banner Material:

The 24 1/2 vinyl banner material is the type of vinyl commonly used for making custom vinyl banners, signs, and other large-format displays. It is named "24 1/2" because it typically weighs 12 ounces per square yard, indicating its thickness and durability. This is the most type of 12 oz vinyl banner material based on their surface finish.

1. Matte Vinyl Matte vinyl has a non-reflective surface finish, which reduces glare and ensures visibility even in bright lighting conditions. It provides a professional look and is suitable for indoor and outdoor applications.

2. Gloss Vinyl Gloss vinyl has a shiny, reflective surface finish that enhances colors and graphics, making them vibrant and eye-catching. It is ideal for applications where a bold and glossy appearance is desired.

3. Clear Vinyl Clear vinyl is a transparent material for its light-colored character. A synthetic plastic polymer base is reinforced with additives and plasticizers to enhance its strength and make it suitable for outdoor use. Additionally, some variations of this vinyl material may include a layer of UV protection.

36 Vinyl

The 36 vinyl banner material refers to a thicker and heavier type of vinyl commonly used for making banners, signs, and other large-format displays. It is named "36" because it typically weighs 18 ounces per square yard, indicating its thickness and durability. Similar to 12 oz vinyl, 18 oz vinyl banner material also comes in different types based on their surface finish.

1. Matte Vinyl Matte vinyl has a smooth, non-reflective surface finish that reduces glare and ensures clear visibility even in bright lighting conditions. It provides a professional appearance and is suitable for indoor and outdoor applications.

2. Gloss Vinyl Gloss vinyl has a shiny, reflective surface finish that enhances colors and graphics, making them vibrant and eye-catching. It is ideal for applications where a bold and glossy appearance is desired.

3. Clear Vinyl Clear vinyl is a transparent material for its light-colored character. A synthetic plastic polymer base is reinforced with additives and plasticizers to enhance its strength and make it suitable for outdoor use. Additionally, some variations of this vinyl material may include a layer of UV protection.

36 Vinyl

The 36 vinyl banner material is a heavy-duty type of vinyl commonly used for making banners, signs, and other large-format displays. It is named "36" because it typically weighs 18 ounces per square yard, indicating its thickness and durability. Similar to 12 oz vinyl, 18 oz vinyl banner material also comes in different types based on their surface finish.

1. Matte Vinyl Matte vinyl has a smooth, non-reflective surface finish that reduces glare and ensures clear visibility even in bright lighting conditions. It provides a professional appearance and is suitable for indoor and outdoor applications.

3. Clear Vinyl Clear vinyl is a transparent material for its light-colored character. A synthetic plastic polymer base is reinforced with additives and plasticizers to enhance its strength and make it suitable for outdoor use. Additionally, some variations of this vinyl material may include a layer of UV protection.

24 1/2 Custom Vinyl Banners Finish Options

Before placing your order, it's a good idea to view and decide on the following finished options: **Free Hems and Jibs**

[H] Hems are an essential part of any vinyl banner, especially those with graphics. The hems prevent creases, wrinkles, and fraying along the top and bottom edges. BannerStore.com offers two types of hems: double hems and single hems. Double hems are created by folding the banner twice, while single hems are created by folding the banner once. BannerStore.com offers two types of hems: double hems and single hems. Double hems are created by folding the banner twice, while single hems are created by folding the banner once.

[J]

Jibs are metal rings inserted into holes through vinyl material, colored on each side to help them hold securely in place. They prevent tearing or damage to material from the rigging on the front and back of the banner. BannerStore.com offers two types of jibs: double jibs and single jibs. Double jibs are created by inserting the jib into the banner twice, while single jibs are created by inserting the jib into the banner once. BannerStore.com offers two types of jibs: double jibs and single jibs. Double jibs are created by inserting the jib into the banner twice, while single jibs are created by inserting the jib into the banner once.

[M] ZIPPOCKETS

Zip pockets are a great way to prevent your vinyl banner from sagging and they also allow you the option of adding graphics or photos across the length. These pockets will be distributed evenly across the banner, allowing you to add graphics or photos to the banner. BannerStore.com offers two types of zip pockets: double zip pockets and single zip pockets. Double zip pockets are created by inserting the zip pocket into the banner twice, while single zip pockets are created by inserting the zip pocket into the banner once. BannerStore.com offers two types of zip pockets: double zip pockets and single zip pockets. Double zip pockets are created by inserting the zip pocket into the banner twice, while single zip pockets are created by inserting the zip pocket into the banner once.
